NOTES:

- Tariffs do not include cartage and/or handling charges. No siding charges (first movement only) are leviable.
- Railage should be calculated on the actual mass loaded per wagon, subject to the marked carrying capacity of the wagon used or the carrying capacity of the wagon as modified by the applicable axle load restriction or the minimum mass stipulation applicable on the particular commodity, whichever is the lesser, as a minimum.
- See the List of Commodities for commodities on which these tariffs are applicable.
- FUEL SURCHARGE.** All prices are subject to change in the diesel fuel price and a fuel surcharge will be applicable on all prices as from 1 Jan 2011 and shall automatically be added to the sum total of the transport charges of each consignment. The fuel surcharge will be adjusted according to the changes in the whole sale diesel price at Walvis Bay and for each 5% adjustment in the fuel price the surcharge shall be adjusted with 1.50% subject to the diesel fuel price as on 1 Jan 2011 (base price) as a minimum. The surcharge will be effective 7 days after which the revised fuel price has been announced.
- All tariffs are subject to alteration and can be revised without prior notice. The tariffs should thus first be verified with TransNamib in order to ensure the correctness/validity thereof.
- VAT. Prices include VAT.

EFFECTIVE DATES: 20110101 - 20111231
