726-750	912.84		
751-775	940.34		
776-800	970.28		

NOTES:

1. Except where otherwise herein provided, tariffs are only applicable on full direct RTS loads.
- 1.1 However, tariffs may be applied on traffic transported/to be transported by rail subject thereto that the point of origin/destination is served by a scheduled service. Prices for traffic received/to be transported by rail of which the destination/origin is not served by a scheduled service, will be quoted on request.
2. **FUEL SURCHARGE.** All prices are subject to change in the diesel fuel price and a fuel surcharge will be applicable on all prices as from 1 Jan 2011 and shall automatically be added to the sum total of the transport charges of each consignment. The fuel surcharge will be adjusted according to the changes in the whole sale diesel price at Walvis Bay and for each 5% adjustment in the fuel price the surcharge shall be adjusted with 1.50% subject to the diesel fuel price as on 1 Jan 2011 (base price) as a minimum. The surcharge will be effective 7 days after which the revised fuel price has been announced.
3. Prices include 15% VAT. In instances where the prices are quoted for Import/Export traffic, the VAT should be deducted. However, during capturing, TRACCS will automatically ignore VAT if the correct indicator is used (10/20).
